1. DDA 7D24 Hqs.				<p>Don:</p> <p>Enclosed is a proposed response for the Director's signature, to a Presidential directive to reduce the mileage traveled by government-owned and leased vehicles by 10% for February and March 1980 as compared to the same period last year. With such short notice, there is little we could do that would make overall sense. We could cut the early morning and late afternoon shuttle runs which commuters use, but although that would improve our statistics, it would force everyone to drive their individual cars farther, ultimately increasing the nation's fuel consumption. From a more utilitarian point of view, undoubtedly such a move would lower morale and target you and me as black hats, and unfortunately, that distinction is not redelegable.</p> <p style="text-align: right;">STAT</p> <div style="border: 1px solid black; width: 200px; height: 30px; margin: 10px auto;"></div> <p style="text-align: center;">James H.
